SUMMARY

Front-End WordPress Developer with 12+ years of experience building responsive websites, landing pages, e-commerce interfaces, and content-managed marketing platforms for companies, agencies, and international clients. Strong background in WordPress theme development, Elementor, Advanced Custom Fields, WooCommerce-oriented front-end work, HTML, CSS/SASS, JavaScript, jQuery, PHP, TailwindCSS, Bootstrap, and React.js based interfaces.

Experienced in converting designs into polished, maintainable web pages, improving existing websites, fixing UI and layout issues, maintaining production sites, and collaborating with designers, back-end developers, QA teams, and marketing stakeholders. Known for being detail-oriented, fast to adapt, comfortable working independently, and reliable in remote team environments

PROFESSIONAL EXPERIENCE

Web Developer | Jan 2026 – Present

Comms eCommerce Limited

- Build and maintain WordPress websites for international clients, with a focus on Elementor-based pages, custom theme work, responsive layouts, and practical website improvements.
- Develop WordPress websites using Elementor, Bootstrap 5, Advanced Custom Fields, HTML, CSS, JavaScript, jQuery, and PHP.
- Translate design requirements into responsive pages that are easy for clients and content teams to edit after launch.
- Handle maintenance tasks such as layout fixes, content updates, landing page improvements, plugin-related adjustments, and front-end troubleshooting.
- Support multilingual and e-commerce-oriented websites, including template adjustments, forms, styling fixes, and client-requested improvements.

Selected highlights:

- Contributed to websites and ongoing client work across European markets, including projects such as romita.si, epot.store, inovact.shop, optimumvvc.hr, and adrian-aparthotel.hr.

**PROFESSIONAL
EXPERIENCE**

Front-End Web Developer | Jul 2023 – Jan 2026

Plastic Bank

- Supported a global impact organization by maintaining the main WordPress website and assisting with a React.js based membership area.
- Maintained and updated plasticbank.com using WordPress, PHP, TWIG, HTML, and CSS.
- Implemented front-end updates, content changes, layout refinements, and website maintenance tasks for production pages.
- Supported a React.js based membership area, helping maintain usability, stability, and consistency across user-facing interfaces.
- Worked with remote stakeholders to resolve website issues, support campaign needs, and keep content pages reliable.

Selected highlights:

- Helped maintain a high-visibility global website with an active marketing and community audience
-

Front-End Web Developer | Jun 2022 – Jul 2023

Astreem Consulting

- Maintained and improved company websites using a mix of custom front-end work, the Frappe framework, and WordPress with Divi.
 - Performed ongoing maintenance for astreem.com using HTML, CSS, and the Frappe framework.
 - Updated astreem.com and treeams.com using WordPress and the Divi page builder.
 - Handled website fixes, content updates, front-end layout adjustments, and support tasks for internal and client-facing pages.
-

Web Developer | Dec 2021 – Jul 2022

Comms eCommerce Limited

- Built and maintained WordPress websites for client projects, combining page builder workflows with custom theme development. Built WordPress websites using WPBakery, Elementor, HTML, CSS, Bootstrap 5, PHP, and Advanced Custom Fields.
- Developed custom WordPress theme sections and templates from scratch when page builder functionality was not enough. Provided ongoing maintenance for websites and landing pages, including content changes, front-end fixes, and visual refinements.

PROFESSIONAL EXPERIENCE

Front-End Web Developer | Mar 2020 – Jun 2021

PT. Decathlon Sports Indonesia

- Maintained web applications and e-commerce interfaces for Decathlon Indonesia, primarily using Prestashop and front-end technologies.
 - Maintained website and web application interfaces using HTML, CSS, jQuery, PHP, and Prestashop.
 - Handled front-end updates, page adjustments, bug fixes, and interface maintenance for customer-facing e-commerce pages.
 - Worked with internal requirements to keep pages usable, consistent, and aligned with brand and operational needs.
-

Front-End Web Developer | Aug 2018 – Mar 2020

PT Pelangi Sentral Kreasi (Dotcom Solution)

- Created websites and web applications while collaborating closely with back-end developers and project stakeholders.
 - Built website and web application front-ends using HTML, CSS, jQuery, Laravel views, and React.js collaboration workflows.
 - Created WordPress websites from scratch using custom themes, Bootstrap 3, PHP, and Advanced Custom Fields.
 - Converted design and project requirements into responsive pages, reusable front-end structures, and maintainable layouts.
 - Collaborated with back-end developers to integrate front-end pages with application logic and CMS functionality.
-

Web Developer | Dec 2017 – Jul 2018

CV Mitra Mode Indonesia

- Maintained and redeveloped loveandflair.com, supporting an online fashion business with website updates and front-end improvements.
- Maintained loveandflair.com, including front-end updates, website fixes, and content-related adjustments.
- Supported the redevelopment of the website to improve structure, usability, and maintainability.

Selected highlights:

- Redeveloped loveandflair.com as one of the key website improvement projects during this role.

PROFESSIONAL EXPERIENCE

WordPress Developer | Apr 2016 – Nov 2017

PT. Creative Visions Indonesia

- Developed WordPress websites and campaign landing pages for client marketing needs.
- Created WordPress websites and landing pages from scratch using HTML, CSS, Bootstrap 3, PHP, and Advanced Custom Fields.
- Maintained campaign websites and landing pages, including layout fixes, content updates, and front-end adjustments.
- Worked on client campaign pages that required clear content presentation, fast implementation, and accurate visual execution.

Selected highlights:

- Developed a campaign landing page for JNTO (Japan National Tourism Organization). Redeveloped the company website to improve presentation and content structure.

WordPress Developer | Sep 2014 – Mar 2016

PT Alfahuma Rekayasa Teknologi (Smart Soft Studio)

- Started professional WordPress development by building client websites from scratch and maintaining existing pages.
- Created client websites using WordPress, HTML, CSS, Bootstrap 3, PHP, and Advanced Custom Fields.
- Handled website and landing page maintenance, including content updates, front-end fixes, and custom field configuration. Built a strong foundation in custom WordPress theme development and client-focused website delivery.

Selected highlights:

- Developed a website for Taman Hutan Raya Ir. H. Djuanda Jawa Barat.
- Developed skaktv.com.
